(3 times a year: May, September, December)
- ✓ **Available for all ages, sexes and nationalities**

Kitakyushu Forum on Asian Women (KFAW) is pleased to announce its FY2014 recruitment of foreign correspondents. KFAW Foreign Correspondents Program aims at expanding an information network through their reports on the status of women in the world. So far 271 correspondents from 40 countries have reported about their cultures, women's status and social issues from a gender-equal perspective.

In every country or region in the world, there may be expressions or customs based on stereotyped perceptions for gender roles on a daily basis within a family, in child raising or at a workplace. These are the common challenges to be addressed by society as a whole in order to make use of full capacities of men and women. Send us your original reports on gender equality, and give us an opportunity to consider how men and women will be able to equally and actively participate in society free from stereotyped perceptions for gender roles.
