**Message from the Speaker:**

I engage in these activities to help ensure that everyone can live their daily lives with peace of mind. Recently, voyeurism in public restrooms and changing rooms has become a serious issue. However, much of the damage can be prevented if we know how.

My efforts focus on building a society where voyeurism is actively prevented. I approach this issue from multiple angles—through crime prevention patrols, street awareness campaigns, security workshops, and support for installing security equipment.

It is my hope—and my driving motivation—to help create a society where everyone can live safely, peacefully, and with a smile. I am committed to tackling social issues related to voyeurism in order to establish crime prevention awareness and a culture of safety!
